Multi-Test series™

Original Equipment Replacement Cartridge

Multi-Test Filters are extended surface high efficiency air filters designed to fit the basket framework of the Farr HP* without modification. MT Filters are collapsible replacement cartridges, and are available in four nominal efficiency ranges: 20–30%, 45–55%, 80–90%, 90–95%.

* Brand and trade names used for product identification only.
No other use is intended.

Product Performance Data

Size	Capacity (CFM)				Effective Media Area Sq. Ft.	Initial Resistance (inches W.G.)				Recommended Final P.D. (inches W.G.)
