

# DuraMAX™ 4vS-16

## High Efficiency Synthetic Media Minipleat Filters

### Features

- MERV 16 performance rating
- Durable synthetic filter media
- Low resistance to airflow
- Extended filter life
- All-plastic frame construction
- Incinerable

*The DuraMAX 4vS-16 is a rigid extended surface air filter engineered to provide maximum performance and prolonged filter lifecycles*

### Low resistance to airflow and lower energy costs

DuraMAX 4vS-16 provides an unequalled combination of low pressure drop and high efficiency through the use of our unique minipleat design. The DuraMAX 4vS-16 contains 200 square feet of synthetic filter media in a standard 24x24x12" frame to help insure a low pressure drop, which in turn helps to lower energy costs to the user.

DuraMAX 4vS-16 is constructed with durable, dual-layer synthetic air filter media\* designed specifically for high efficiency air filtration applications. The rugged composition of the synthetic media makes the DuraMAX 4vS-16 an ideal choice for high velocity or high moisture systems, such as Gas Turbines Air Intakes.

### DuraMAX filters offer extended filter life

The high capacity minipleat design of the DuraMAX 4vS-16 insures high dust holding capacity and extended filter lifecycles. Fewer filter changes means reduced disposal costs and lower overall cost of ownership.

### DuraMAX filters offer engineered versatility

The DuraMAX 4vS-16 is designed to meet the wide range of requirements found in today's position of complex air filtration systems. The 4vS is constructed with a durable all-plastic frame that can be completely incinerated. Standard DuraMAX 4vS-16 filters are UL rated. The DuraMAX 4vS-16 can be reverse-installed in applications with space limitations.

Nominal Size	Initial Pressure Drop @500 FPM (in. wg.)	Recommended Final Pressure Drop	Media Area sq. ft.
24x24x12	.43	2.0	200
20x24x12	.43	2.0	164
20x20x12	.43	2.0	136
12x24x12	.43	2.0	98

\* Performance and MERV data is based on ASHRAE Test Standard 52.2-2012

\*Please see Bulletin No. K-996B for information on our popular original DuraMAX 4v, constructed with microfiberglass.
