Notes:

- Sizes listed above are nominal. Actual sizes are:
 - A) Nominal 12" units- Less 5/8" on height & width and less 1/2" on depth
 - B) Nominal 6" units- Less 5/8" on height & width and less 1/8" on depth
- Multi-Cell filters are capable of operation up to 125% of rated face velocity.
- Standard Multi-Cells may be installed with pleats vertical or horizontal.
- Standard header thickness on Styles FM, SBM and FW is 13/16", with 1-1/8" thickness available upon request.
