

# Large Square Rectangular DC Filter

## Dust Collection Air Filter

### Large Square Rectangular DC Filter

Koch Filter has earned air filtration industry recognition as a world leader aftermarket supplier of air filters.

You'll find our filters in all environments, even the harshest and challenging. Innovative product introductions, ISO 9001 manufacturing facilities, application-specific solutions and extensive field and laboratory filter testing gives Koch an unique advantage over other suppliers. Compatible with Camfil Farr®, Imperial Systems and RoboVent housings with blended wet laid or all synthetic media available to meet your requirements.

*Camfil Farr is a registered trademark of Camfil.*

### FEATURES

Long filter lifecycle

Low replacement and maintenance cost

Eliminated downstream dust and fiber shedding

Low resistance to airflow increases energy savings

Eliminates corrosion and rust

Designed for high moisture and humidity

### Media Options

ICF 12	<b>High Efficiency Cellulose/Synthetic Premium Media</b> Blended cellulose/synthetic premium media with a non-phenolic resin system. High hydrophobicity (moisture resistance), excellent capacity and cake release characteristics.
ICF 12FR	<b>High Efficiency Cellulose/Synthetic Premium Media</b> with a latex resin system. High moisture resistance, excellent capacity and cake release characteristics with fire retardant treatment.
ICF 13S	<b>High Efficiency Premium Blend of Synthetic Media</b> Blended polyester/glass premium media with a vinyl chloride resin system. One of the highest moisture resistance media on the market, great cake release and media strength.
ICF 15	<b>Nano Fiber Coating</b> Blended cellulose/polyester paper media with Nano Fiber. High moisture resistance, excellent capacity and cake release. MERV 15 rating makes it ideal for use in pulse systems.
ICF 15FR	<b>Blended cellulose/polyester paper media with Nano Fiber coating.</b> High media strength, excellent capacity and cake release with fire retardant. MERV 15 rating makes it ideal for use in pulse systems.
ICF 15S	<b>Nano Fiber Synthetic</b> Blended glass and polyester fibers with an acrylic resin for moisture retardancy and a surface Nano-Fiber laminated for excellent efficiency. Excellent moisture resistance and cake release.
